Submitter Comments:

E-Scooters, E-Bikes & Push-Bikes should have a speed limit (eg. 10 kph), when on footpaths. If they are travelling on anything other than a road, then they must give-way to pedestrians at all times. If they choose to travel on a road, then they must pay a Registration, to cover them for 3rd party public liability (as a minimum). If they choose to travel on a road, then they must follow & be bound by the rules of the road.
