Submitter Comments:

The electric scooters are dangerous. I have witnessed people being injured by scooters hitting them on the sidewalk. I have almost been hit several times walking along with my 2 year old granddaughter. These things are left in the middle of the sidewalk, blocking wheelchair access, doorways and vehicles when parked on a driveway. Pedestrians are being disadvantaged and injured. These E scooter's and bikes should not be permitted on footpaths because of the danger to pedestrians. Please ban these.
