I daily experience near misses and laws ignored with e-bike riders particularly with nearby .schools.Tuesday night travelling home at around 8pm at the last minute I detected in front of me an e-bike rider wearing dark clothes and with no bike lights.i dare not overtake him as he was weaving on the road so for about 3 k I drove slowly behind him on high beam so that I could keep him in my sight.Ridiculous.yet another example of a total lack of road sense and road knowledge..
