Submitter Comments:

I ride my e-assist bike most days between Burleigh Heads and Surfers Paradise. The fully electric bikes and scooters have become a very dangerous situation on the pathways including along Hedges Av and Albatross Av. These machines are too powerful and are usually ridden by underage girls and boys. These illegal machines need to be taken off our streets and pathways. However it is very important not to include e-assist bikes- these are the ones that if you don't pedal, you do not move. These bikes are not the concern as their top speed is usually slower than the bike groups that ride our streets. Furthermore these e-assist bikes are usually ridden by senior citizens
