Submitter Comments:

All e bicycles should be 100% pedal assist without the ability to have a throttle or thumb control. So in layman's terms if you don't pedal you don't get assistance. Scooters should be push only no e motors in any way shape or form. As for penalties 1st offence the owner gets the chance to put the e-bicycle/scooter back to legal requirements. 2nd offence confiscation, fine, if a licence holder demerit points, if not a licence holder a further 6mth wait to getting their learners permit. Then revert to adult crime adult time due to having a licence is a requirement of an adult.
