### Submitter Comments:

Here is now the opportunity for Queensland to address this issue correctly. I propose the Committee considers the following: 1. The minimum age for e-bike and e-scooter operators must be 16 years. 2. All e-bike and e-scooter operators must be licenced, and this licence must be carried when operating the appliance. 3. All e-bikes and e-scooters must be registered, and registration plates must be affixed to the appliance. 4. All e-bike and e-scooter operators must be insured for third party damage and public liability. 5. All e-bikes and e-scooters must be certified as Roadworthy, and they must conform to national and industry standards. 6. Failure of any e-bike and e-scooter operator to adhere to the above requirements must attract fines, confiscation of appliances, and disqualification of future registration or licensing. I thank the Committee for the opportunity for me to contribute to this issue.
