Submitter Comments:

Believe escooters/ ebikes need to be only for 16 and over. They are essentially a vehicle and you have to be 16 and over to drive a vehicle. This would assist schools in banning these from schools as easier for schools to police. This would reduce so many being on the road and less parents buying them as they would no longer use them to get to school. Need some form of third party insurance / registration for all vehicles. Need education, once changes are made, too many saying they didn't know. The posters at the Kawana Shopping Centre were great, should be in all large shopping centres.
