Submitter Comments:

I believe safety is the main concern, particularly crashes related with e-scooters. Their speed are very high and dangerous. Those young kids riding too fast (some are doing at 80km/h) on the traffic roads do not know about traffic rules and road safety. They are exposing themselves in a very high risk situation, and the consequences could be harsh. Some suggestions: 1. Ban of riding e-scooters on the traffic lane or bicycle lane adjacent to traffic. 2. Allowing e-scooters only on the footpath or shared path, but not on the road or bicycle lane adjacent to traffic. 3. Enforcing speed limit to max 30km/h for e-scooters. 4. Banning of young children without having P-license (understanding of road rules and road safety). 5. Ultimate option - complete ban of e-scooter in Queensland.
