Submitter Comments:

These new E BIKES are as big as a registered 125cc motor bikes . They are capable of speed above 50 k s per hour.They are ridden on foot paths in excess of 12 kper hour .THEY HAVE NO SPEEDO .They are capable of being ridden by under 16 years of age riders with no understanding of road rules.Pinion passengers are a common site and I have seen upto 4 persons on these bikes This makes the footpath a dangerous place to walk. One of these machines travelling at speed ,with the drivers and the weight of the machine is a lethal combination.DO SOMETHING,
