**Submitter Comments:**

I'm a big advocate of e-bikes I think they open up many opportunities to people. I believe the speed limit should be increased to 35km/h and wattage to 500 or 1000 for climbing hills I also believe there should be a throttle option. There should be laws to punish offenders for poor riding practises like with driving so you speed etc you get fined and or bike taken away. We share the streets and parks so we need to respect others. If this means having to pay for a permit to ride then so be it.
