Submitter Comments:

I would like to express concerns of the misuse of electric motorbike or scooters that have the over 8KW of power. The bikes are unregistered and a danger to themselves and others. I would like action taken on anyone especially minors who have no license or registration to be operating such motorbikes. There are already a high number of incidents that have incurred by in proper use of these bikes. Our entire family rides electric bikes which cannot exceed 30km/h which is a great way to avoid traffic and lower the impact on the roads. I support bike infrastructure to continue to grow the e-bike community with bikes of this nature. As always, it takes a couple of people in the community to destroy what is supposed to be intended to lower emissions and traffic congestion.

I am happy to discuss this issue further
