Submitter Comments:

I believe you should be 17 years old and hold a learners permit or a license to ride e-bikes or scooters. I think they're great for the environment as well. I think Increase the assisted speed limit to 38 km/h Raise the legal power limit to 500kw as I way 100kg and a 250kw wouldn't even get up a slight incline. Allow throttle use up to the legal speed limit, just like pedal assist
