Submitter Comments:

E Scooters and Bikes Danger to animals and people in the off leash parks that my dog and I frequent. High speed of people on e-bikes and scooters possibly on the way to work or school. No bell or horn and no warning regarding approach. Often enclosed helmets to avoid identification.

A number of near misses on the road with young/ riders. No helmets or fully enclosed motorbike helmets, no registration for follow-up and danger on pedestrian crossings due to the speed of approach. Examples include lack of braking when traffic stops, with one rider nearly through my back window of my Forester. (Maybe 11/12 years old) Needed: Registration with education of rider - recourse for victims/ witnesses after incidents occur Retailers/ online vendors to be educated with requirements Required warning device, e.g. Bell Age restriction/ speed restriction on paths
