Submitter Comments:

Hi , i am making this submission as we have recently been staying at Ronald McDonald house on Vulture st, while our daughter has been in the Brisbane children's hospital. We have seen so many close calls with kids and young adults riding the e scooter and e bikes on all of the paths in and around the hospital and especially down at southbank. They have even been on the areas signed where no bikes are allowed. It os certainly disconcerting while we have been pushing our daighter in her wheel chair. We have seen e scooter thrown over into the river jist left anywhere where we could trip over them. They are a real menace to the safety of pedestrians. There is no respect from those riding these things they expect us the pedestrians to get out of their way. Please do something before more accidents happen. I understand they are beneficial, i am not sure of any answers. Maybe more consequences for bad behaviour but how do you police it? Thank you for reading my submission. Regards, Michael
