Submitter Comments:

There are several issues which i believe need to be dealt with in relation to e-mobility devices1. e-scooters and e-bikes should be registered and have CTP insurance as part of that registration, they should also have a registration tag of some kind so as to allow identification of the registered owner, be that an individual or an organisation.2. footpath speed should be limited to jogging speed to help keep pedestrians safe.3. helmets should be manditory and those using roads should be required to wear full face helmets.4. anyone using roads should be required to pass a road rule exam.5. consideration must be given to penalising the parents of children under the legal age operating these devices.6. devices should be limited to one passenger, no doubling7. hired e-scooters or bikes must be returned to designated areas, not just dumped where ever they like eg middle of footpaths.
