### Submitter Comments:

On [REDACTED] was run over by a privately owned e-scooter. I was transported to the Bundaberg Base Hospital by Ambulance.

[REDACTED]. The said rider of the e-scooter was not watching where he was going without a helmet on and speeding down the main footpath of the Bundaberg CBD area where it is clearly identified by local city council signage. I am still suffering the effects of this accident, fortunately no broken bones.... This is a common occurrence in this area of high speed e-scooters literally flying through the cbd of Bundaberg with little to no policing of this dangerous activity. It is only a matter of time before a young child or adult is severely injured or at worst scenario killed. The local shop keepers of the area are very concerned to the point of the store that I came out of being [REDACTED] [REDACTED] has put out a a-frame type sign out of the front of their shop to offer their customers some protection upon exiting their store against these speeding uncontrolled e-scooters.
