**Submitter Comments:**

E bikes should remain for the same reasons why governments and councils are already spending money on green e bike programs. They greatly help our family with teenage kids who are able to get themselves to school and sports training without us having to drive - reducing our impact on these high car traffic times. My son can get to training much faster than I can in my car because of very heavy traffic (gold coast). Please don't have a knee jerk reaction to a few noisy wingers and the media spin. If you did a simple survey of the population you would find the majority are in favour of them. Thanks
