Submitter Comments:

Good Morning Qld Parliament I wish to make a submission on E Mobility Safety The past four years we have witnessed daily an escalation of E Mobility Scooters and illegal E bikes. Doubling, no helmets, speed. By Adults and Teens Due to an access which links into a Victoria Point Shopping Centre. In February this year I was nearly run over and contacted our Council and QPS. QPS mentioned they are difficult to enforce the laws. Our Council stated it is a QPS responsibility. We had requested signage, and was rejected by Council. If these devices are to remain The illegal E bikes need to be banned Insurance for all e Mobility devices Registration for all e mobility Devices

A license to ride these E Mobility Devices all ages Parents need to be held responsible for purchasing these E mobility ensuring their children are educated in Road Safety. There have been many accidents, fatalities sadly. Enforcing the Laws is posing a challenge therefore needs more Policing also Council Safety Officers coming together with the State Govt. Serious consideration needs to be taken for the Safety of our Community using footpaths, it is a major problem with E mobility devices users showing no safety or courtesy endangering pedestrians on footpaths. Enforcing the Laws is crucial if they are to remain in the Community. Also laws need to be fast tracked. Thank you for the opportunity.
