Submitter Comments:

I call for a total ban in e scooters and e bicycles to be regulated as a motorcycle. In my suburb e scooters are ridden in a dangerous and unpredictable frequently by people with no consideration for others. They can reach 60kph on Riverway Drive. They are a danger to motorists, pedestrians and the rider. Then there are the preschoolers wobbling along the back streets in the middle of the road, two up on the e scooter. There is no place in Queensland for e scooters. The power, acceleration and speed of e bicycles make it selfevident that they be regulated and managed exactly as a motorcycle, which is what they are.
