Hello

My name is [REDACTED] and I live in The Gap. Attached is a letter from my son [REDACTED] who is 12 years old, and attends Hilder Road State school.

Dear whom is may concern,

E-scooters and e-bikes are a fun and easy way to get around. They don't use gas, so they don't Make the air dirty like the cars do. This helps keep our planet clean. They are also small and compact, making them perfect for short trips to school, work, or the store—without needing a car. Not everyone can afford a car, but e-scooters and e-bikes are more affordable and help people travel where they need to go. Many other cities already use them safely. If we create smart rules, we can use them safely too. One idea is to offer a simple license or safety training for people 12 and older. Instead of Taking the vehicles away from people, we can focus on educating riders to keep everyone safe. We should make e-scooters and e-bikes legal because they're better for the Earth and make it easier for people to get around. Another example about e-scooters and e-bikes is how it promotes a healthy lifestyle instead of being inside on a screen playing video games.

Thanks

[REDACTED]
