### Submitter Comments:

Premier David Crisafulli and the State Government plan to override 15 pieces of Queensland legislation to try and prevent any legitimate legal objections to their proposed stadiums in the heritage-listed park is disgraceful and a slap in the face to the community. While we expected this decision from the State Government, it is an outrage and demonstrates the government's attempt to block legitimate objections through the democratic process. Victoria Park-Barrambin is the green lungs of Brisbane, with a rich and storied history spanning back thousands of years. It is a protected green space for a reason and our city's second most significant Indigenous site after Musgrave Park. If the government truly believed these stadiums were justified, why would they need to tear down so many legal protections to build them? How can a reasonable Premier stand behind a demolition of our park and now a demolition of our laws? A fundamental of town planning is the open space / per capita with the advent of high density dwellings in and around the CBD it is more important than ever premium open space be preserved as sacred to the health & mental wellbeing of the populace. This means HERITAGE LISTED 150yr old VICTORIA PARK remain as its LEGACY intended for all & NOT be developed into a commercial venture by greedy politicians and corrupt developers & sports fraternities "HERITAGE IS FOREVER" corrupt sports fraternities!
