Submitter Comments:

As a proud Brisbane local I want to fully support the State Government and its plan to override several laws as listed below to be able to proceed with the Victoria Park Olympic stadium and other Olympic facilities without challenge. This project is too important to be held up by what I believe to be a very, very small minority of people. It will still be a park, it will still be on Indigenous land, it will still be a meeting place as it always has been. Landscape changes over time as it did a million years ago, and as it does today. Unlike the old golf course with its man made hills this stadium will bring communities together in celebration for generations to come and I'm sure the ancient spirits will be made happy by this. This is a big country with millions of acres of untouched land. There is ample to share. Brisbane is a world class city and we deserve a world class stadium and a world class Olympics. Once again I fully support the motion to override the following laws: (a) the City of Brisbane Act 2010; (b) the Coastal Protection and Management Act 1995; (c) the Economic Development Act 2012; (d) the Environmental Offsets Act 2014; (e) the Environmental Protection Act 1994; (f) the Fisheries Act 1994; (g) the Integrated Resort Development Act 1987; (h) the Local Government Act 2009; (i) the Nature Conservation Act 1992; (j) the Planning Act 2016; (k) the Queensland Heritage Act 1992; (l) the Regional Planning Interests Act 2014; (m) the South-East Queensland Water (Distribution and Retail Restructuring) Act 2009; (n) the Vegetation Management Act 1999; (o) the Water Supply (Safety and Reliability) Act 2008.
