Submitter Comments:

1. Victoria Park Must remain a park for future generations Victoria Park / Barrambin is Brisbane's largest inner-city park. It spans over 64 hectares and is a rare green space for recreation, ecology, and cultural heritage. The site is deeply significant to Aboriginal peoples, and it also holds immense value for Brisbane's broader community. The Victoria Park Master Plan was developed after almost four years of community consultation so the surprise announcement of Olympic venues in Victoria Park is a shocking betrayal of community trust. Countries around the globe are desperately trying to make green space in cities to improve quality of life. I don't understand why we don't maintain ours. It's one of Brisbane's greatest assets. Think Hyde Park London, Central Park in New York, Garden de Tuileries in Paris, Park Guell in Barcelona, these are huge assets for the community and worldwide famous assets because they are so important. Trying to destroy it is senseless.

2. Why a Stadium in Victoria Park Doesn't Make Sense Building a stadium in Victoria Park / Barrambin is impractical, environmentally damaging, and contrary to community interests. Key reasons include:

1. Loss of Essential Green Space: As Brisbane's largest inner-city park, Victoria Park provides vital green space in a city already lacking in such areas. A stadium would significantly reduce this public amenity. There are mature native trees in this park which pre-date European settlement and date to pre-1750. Other Australian cities have already destroyed their green spaces to their detriment. Why would Brisbane make the same mistake?

2. Challenging Topography: The park's hilly terrain and hard Brisbane Tuff rock would require extensive excavation and blasting, increasing costs and potentially disrupting nearby hospitals due to vibrations.

3. Violation of Olympic Host Requirements: Constructing a stadium here would breach the Olympic Host Contract, which mandates avoiding permanent structures in protected areas and prioritizing previously developed sites.

4. Existing Traffic Congestion: The area already experiences significant traffic from nearby hospitals, schools, and universities. A stadium would exacerbate congestion, affecting emergency services and destroying all the benefits the current park offers.

5. It's poorly accessible causing havoc and disruption making it unlikely that it will be used : Unlike other stadiums, Victoria Park lacks sufficient public transport access. The nearest station is a considerable walk away, posing challenges for attendees, especially those with mobility issues.

6. Aboriginal people and their history are completely disregarded. We have no right to ignore their culture. We should be proud of the values their culture

7. Proximity to Major Hospital: The park is adjacent to the Royal Brisbane and Women's Hospital. Stadium events could disrupt hospital operations, affecting patient care and staff.

8. Lack of Surrounding Amenities: The area lacks the bars, restaurants, and entertainment venues that typically support stadium events, leading to potential overdevelopment within the park itself or destruction of the city heritage already existing

8. Environmental Impact: The park serves as a natural cooling area, mitigating urban heat. Development would increase heat retention and reduce air quality.

9. Cultural Significance: Victoria Park holds deep cultural importance for First Nations communities. Development risks disturbing sacred sites and erasing historical significance.

10. Every inch of Victoria Park is heritage listed at the local or state level. This land is part of the story of Brisbane and has a rich WWII and depression era history.

11. Community Opposition: There is strong public resistance to the stadium proposal, with concerns about environmental degradation, cultural disrespect, and loss of public space.

3. What the Bill Would Do The Bill proposes to list a Stadium in Victoria Park as an 'authority venue' for the 2032 Olympics. The Bill would exempt construction of such Olympics venues and villages from 15 Queensland planning, environmental and heritage laws. The Bill would also remove any access to the Courts in relation to the construction of Olympics venues or villages. It would also override First Nations

cultural heritage protections using a new process which railroads First Nations into a default plan if they don't agree in the timeline specified by the Bill.

4. Why This Should Concern Queenslanders
The Bill removes public safeguards by effectively exempting Olympic venues and villages from laws that apply to ordinary Queenslanders. This includes the Planning Act, Heritage Act, and Environmental Protection Act. Access to the Courts is a basic right of all Queenslanders. The Bill proposes to remove this right with sweeping provisions in relation to Olympics venues and villages. The Bill introduces a fast-tracked cultural heritage scheme that limits consultation and allows default plans without the agreement of Traditional Owners. The potential use of public parkland for commercial Olympic 'villages' risks corruption. These exemptions from planning laws and court review bypass scrutiny and reduce transparency when privatising very valuable public assets.

5. What I Am Asking the Committee to Do
I respectfully ask that your report to Parliament recommend that:

1. Victoria Park / Barrambin be removed from Schedule 1 (Authority Venues);
2. The cultural heritage override provisions be withdrawn;
3. Olympic developments be subject to existing Queensland laws like all other developments;
4. The Victoria Park Master Plan be upheld as a reflection of the community's vision for the park;
5. That no one person has any power to override any existing legislation. This is Trump like and the recent election has shown Australians don't care for that type of Government
