Submitter Comments:

1. Why Victoria Park Matters Victoria Park matters to me as a green space for recreation and space for wild life. It does not make any sense to me to destroy such a valuable green asset for any gain, let alone a stadium. Green spaces are becoming increasingly rare and destroying such a central and important site just boggles my mind. Nobody would support a stadium in Central Park NY, Hyde Park London or Sydney. This destruction will leave Brisbane in a very bad light globally. Below are some points to make:

2. Why a Stadium in Victoria Park Doesn't Make Sense Building a stadium in Victoria Park / Barrambin is impractical, environmentally damaging, and contrary to community interests. Key reasons include:

1. Challenging Topography: The park's hilly terrain and hard Brisbane Tuff rock would require extensive excavation and blasting, increasing costs and potentially disrupting nearby hospitals due to vibrations.
2. Violation of Olympic Host Requirements: Constructing a stadium here would breach the Olympic Host Contract, which mandates avoiding permanent structures in protected areas and prioritizing previously developed sites.
3. Existing Traffic Congestion: The area already experiences significant traffic from nearby hospitals, schools, and universities. A stadium would exacerbate congestion, affecting emergency services and daily commutes.
4. Inadequate Public Transport: Unlike other stadiums, Victoria Park lacks sufficient public transport access. The nearest station is a considerable walk away, posing challenges for attendees, especially those with mobility issues.
5. Loss of Essential Green Space: As Brisbane's largest inner-city park, Victoria Park provides vital green space in a city already lacking in such areas. A stadium would significantly reduce this public amenity. There are mature native trees in this park which pre-date European settlement and date to pre-1750.
6. Proximity to Major Hospital: The park is adjacent to the Royal Brisbane and Women's Hospital. Stadium events could disrupt hospital operations, affecting patient care and staff.
7. Lack of Surrounding Amenities: The area lacks the bars, restaurants, and entertainment venues that typically support stadium events, leading to potential overdevelopment within the park itself.
8. Environmental Impact: The park serves as a natural cooling area, mitigating urban heat. Development would increase heat retention and reduce air quality.
9. Cultural Significance: Victoria Park holds deep cultural importance for First Nations communities. Development risks disturbing sacred sites and erasing historical significance.
10. Every inch of Victoria Park is heritage listed at the local or state level. This land is part of the story of Brisbane and has a rich WWII and depression era history.
11. Community Opposition: There is strong public resistance to the stadium proposal, with concerns about environmental degradation, cultural disrespect, and loss of public space.

Please consider my plea for a more livable and sustainable Brisbane.
