Submitter Comments:

I would like to request that Victoria Park is saved from development please. It was given to the people of Brisbane in perpetuity as public space, and it seems wrong that the government can ride roughshod over 15 laws to ensure that they build their stadium on it. There are plenty of other spaces that would suffice for a stadium, including above Roma Street Station, which would cost more in the long run, but serve the people better, by making Brisbane a greener place to live. This unique space at Victoria Park, and also Mt Coot-tha, is what makes our city great. Please don't let anyone, especially a sitting government destroy these special, unique, places for their own needs. Once it is gone, it's gone forever. We need them for our future children and grandchildren, so they can have quality of life in the future.
