Submitter Comments:

Dear committee, Under no circumstances should a government body consider exempting any development from any act. These acts have been established for a good reason, to protect things that need protecting, such as our environment and green spaces. Thus park has historical and environmental value... Green spaces in cities are rare and precious and must be protected at all costs. Once it is gone, it is gone forever and future generations are impacted adversely. We need these parks for exercise and to promote good mental health. The Olympic Games should not make our standard of living worse... You must reconsider this decision. Yours sincerely, Linda Shaw
