Submitter Comments:

I am completely opposed to the proposed changes in legislation which if it went ahead would destroy green spaces, local biodiversity and Aboriginal cultural heritage. I think it is appalling that this is being proposed and I urge the government to reconsider and plan a different alternative arrangements for the development of infrastructure for the olympics. This says a lot about the values and the priorities of the current government (and it is not positive). If you are serious about voice, truth, and treaty - this will not go ahead.
