Submitter Comments:

To whom it may concern,I wish to formally register my objection to the QLD Parliament's proposal to scrap 15 state laws in order to fast-track development development in Victoria Park fortwo Olympic Stadiums.These laws were established to protect our city (and our state's), environment, heritage and community and overriding them undermines the very principles of responsible governance and sustainable development. This move disregards hard-won protections that reflect Queenslanders' values and long-term vision for our state.As a resident I place the highest value on democratic process and our unique environment and heritage - Victoria Park is historically significant and serves as the green lungs of our city. It deserves to be protected, not sacrificed!! I urge the Queensland Parliament to reconsider this proposal and act in the interests of future generations.Kind regards,Philippa Coleman
