Submitter Comments:

Hii find the intent to build 2 Olympic stadium at Victoria park ridiculous:Not only is it against the Olympic bodies advice to reuse existing infrastructure it also requires the bypassing of very sensible laws. If it was one or two you could potentially say yeah ok but its over 10!!!! Seriously !!!!The Developpers wanted to get their greedy hands on this parcel of land for a while and now this has given them the perfect opportunity to do so, or so they think.Who gave them the right to irreversibly destroys imported public space. How many intents, guidelines, laws and comon sense will be broken to bulldoze this through?We used to live in Paddington and the mayhem a major event at Suncorp causes is extreme. Now place the traffic jams, the noise ... next to a large Hospital which has already insufficient access and parking.Who will stand up and tell the families that their loved one was lost on the way to a hospital or the doctors not being there on time due to a event that seemed more important than lives? Please ask your selves if you seriously want to be responsible for this as well as building a expensive, high impact venue in a protected area that will be difficult and costly to build due to geological and access issues.I hope sanity wins.Thanks
Beat
