Submitter Comments:

I have lived in this area for 27y. During this time I have seen traffic into and out of the city centre increase significantly, that is ok, it is part of a growing city. What is not ok is to consider for even one moment adding to this congestion by building venues in Victoria Park - RIGHT NEXT TO QLD BIGGEST HOSPITAL!! You know, where it is important to get into and out of quickly, where people need parking spaces....The result of this for those TWO WEEKS will be total bedlamThe above is not even taking into consideration the fact that this beautiful green space was intended to remain as green space close to the city centre - THAT is its designated use. How can you even think to overturn laws simply to host a sporting competition that will last for 2 weeks but destroy our landscape forever? How can a government get elected on a promise to NOT do this and then change their mind and do this?There are other options for this TWO WEEK EVENT than destroying much loved green space.Doing this actually breaks the law - that you are planning to 'amend' to allow you to do this? That is a disgusting entitled and selfish mindset.Utterly disgusted and very disappointed
