Submitter Comments:

Hil dont think overriding 15 important environmental, heritage and planning laws, all to fast-track Olympic developments, including TWO stadiums in Victoria Park / Barrambin is a great idea and should not be done. This legislation, known as the POLA Bill, attempts to silence community voices and set a dangerous precedent for how major developments are pushed through in Queensland. Its the wrong approach at the wrong place not only breaking laws but also going against IOC's recommendation to use / upgrade existing facilities, political promises, cost and impact. Building major event infrastructure next to a major Hospital seems just soo wrong. Have you seen the mayhem that breaks lose when a major event is held at Suncorp? The traffic jams, the noise... and the committee thinks unleashing that next to Brisbane's biggest hospital is a good idea? The Building noise and traffic will affect the Hospital for years and years, the blasting, rock crushing, the dust, the trucks bringing in materials and caring fill out. Please don't put your name against a initiative that will have such an non reversible, negative impact to society in general and the vulnerable specifically. There are better alternatives with less negative impacts out there. Thanks
