### Submitter Comments:

This proposal concerns me greatly because: A dangerous precedent of over riding local planning laws - set by the current Qld government - could potentially become the 'norm'. In recent years, I was so pleased to hear that the Victoria Park area was earmarked by BCC for revegetation as an inner city green space - if the stadiums go ahead, it seems that this was an empty promise. This makes me feel both sad and angry that the positive - that so many Brisbane residents were overjoyed to hear - could be just turned on its head. Trust in our democratic system of managing our local environments will be eroded if the current Qld government is given over riding powers. A lack of trust in this system undermines the happiness of Queensland residents.
