---

I own property on the river and have a vessel permanently moored on the river. The new 28day mooring/anchoring rule being applied to the river impacted my boat, therefore my lifestyle and I'm now forced to pay upwards of \$10k per annum for permanent mooring. All the while countless vessels continue to breach the new said rules. I'm embarrassed for the officialdom who enforced the rules on me, et al, but not the countless others on the river. iniustus.
