

Sunshine Coast Waterways Authority Bill 2026

Submission No: 021

Submission By: Craig Vella

Publication: Making the submission and your name public

I am a Noosa resident and have used the Noosa River for many years for recreation / fishing / boating/swimming, etc. I am a member of the Noosa Boating & Fishing Alliance, which represents over 3,000 local residents, ratepayers, and business owners who depend on healthy, accessible, and ideally well-managed waterways. I make this submission because the management of the Noosa River directly affects me and because I have serious concerns about ensuring balanced representation in any new governance structure.
