

Transport Affordability Amendment Bill 2026

Submission No: 030
Submission By: Goodna & Districts Gymnastics Club Inc.
Publication: Making the submission and your name public

As a non-profit community club and on behalf of our committee and members, we acknowledge the struggle that our families have to balance their budgets. Children need to partake in activities, socially and challenging. The unfortunate side of this is that there is a cost to it. Fuel remains a huge impost on families especially when it may fluctuate daily for one or more reasons. Labour's public transport 50c fares helps with this but public transport is not always available especially for grocery shopping, school drop off, sport activities etc. A cap on how much fuel prices increase each day would be a help for families and their budgets. Please pass Labour's Transport Affordability Amendment Bill 2026.
