Dear Sir/Madam

I would like to make a submission to the Parliamentary Committee **opposing** the proposed **Aveo** retirement facility. I am very concerned about possible financial repercussions and impact on my current lifestyle. The potential economic impact of the proposed

legislation raised the spectre of massive property devaluations in Sanctuary Cove. I believe that a 50% devaluation on our property values is likely. Also, the proposed legislation is not **limited** to the Aveo site. The proposed amendment does not identify the zones

that will include these uses.
