Floods in NQ, fires in TAS, drought throughout QLD, NSW and SA, heatwaves stretching across the middle from WA. This is CLIMATE CHAOS! Yes, these events have happened before but never have they been so devastatingly different in effect from one reach of the country to the other.

What do you want for your grandchildren? They'll never get over you handing them your mess to tidy up!

Dear Chair and Committee Members,

My address is [REDACTED] and my phone number is [REDACTED]

I am writing this submission in support of the Mineral Resources (Galilee Basin) Amendment Bill 2018.

If we are to have any hope of stopping catastrophic climate change and saving our precious Great Barrier Reef, we need to do everything we can to meet our commitments to limit global warming to below 1.5 degrees.
