Subject: Submission to the Vegetation Management and other Legislation Amendment Bill 2018

My name is Peter Jessup Low

My address is [REDACTED]

I fully support this Bill, however I feel that it needs to go further.

It is vital that Queensland dramatically reduce the clearing of native and advanced secondary forests. The key issues of 'thinning' forests and of 'exempt' areas need to be tackled to adequately control and reduce the unsustainable levels of clearing that have been taking place in Queensland since the Newman Government reduced controls over bulldozing of native-forests and woodlands in 2012.

Australia should not be one of the world's worst forest-destroying nations.
