Subject: Tree clearing laws
Date: Thursday, 15 March 2018 10:20:37 AM

Hello.

I have been reading some of the proposals to change more clearing laws on rural and residential land.

Free hold land for all that seems to matter these days..

I am a dozer contractor and have been in earthmoving and land clearing all of my life and my father before me.

We have a considerable amount of money invested in a business that will be impacted once again by your restrictive laws.

The rights of land holders has yet again been diminished by a government that seems to constantly want more power over peoples lives and prepared to walk all over productive people in order to pander to a small group of greens who hold your balance of power. Land clearing is not farmers destroying properties its farmers managing there land in a practical way.

I have cleared many blocks of regrowth that is more than 15 years old and it sometimes is a block that needed more funding to develop it into farm ground but economics of farming didnt allow it at time.

To put time limits on anyones freehold land is ridiculous and a stab in the back for owners of land.

Why is it governments right to think you have the right to restrict freehold landholders of there free choice to manage there own land as they see fit.

The greens are another word for comunist in my opinion and the agenda of the greens is to turn this country into a place where land holders have no rights and eventually no wealth. All i ever see from government is dictatorship of the comon man and freehold is being stripped of having any meaning apart from paying fees and taxes for the privilege of owning it.

My business will suffer big time from even more changes to limit freedom of choice on clearing and you dont seem to care.
