Dear Committee Members,

The question you need to answer is 'Are you a short term political decision maker?' or 'Are you a long term political decision maker?'

Short term – Pandering to special interest groups, the noisy minority and your own biases all in the hope that you will keep your job and be reelected. But will you be remembered or forgotten? I think the latter!

Long term – Listening and discussing with *all* parties to achieve a thoughtful and balanced outcome where everyone in the community benefits. As long as your decision and the reasons for that decision are articulated and communicated well, the community will understand and accept your decision. You will leave a lasting legacy for all in the community to appreciate and enjoy.

Thank you and regards,

Gregory Shaw.
