Subject: Objection to the proposed new Vegetation Laws
Date: Wednesday, 21 March 2018 9:16:15 AM

Dear Sir/Madam,

We would like to strongly express our protest to the new proposed Vegetation Laws coming before Parliament . We are responsible Land owners and have been for many Generations. Our Family has been here for 4generations looking after the grass and trying to manage the regrowth to grow enough grass to feed our stock .

We must manage our grazing land to continue to produce good results for our bottom line , thining our fodder is the way we have been doing this for Generations .

Please do not mess with our business , we will ask for help if we need it but most of the time we are sustainable .

Yours Sincerely Wendy and Ian Winks
