

SUBMISSION

In providing this submission I refer directly to the key provisions of the legislation which may be amended.

1. Removing High Value Agriculture and Irrigated High Value Agriculture from the Vegetation Management Framework

Opening up the north will be a great ~~asset~~ asset to the economy. food + fibre

2. Retaining Self-Assessable Codes

Self assessment: our livelihood.

OUR PROSPERITY HAS IMPROVED IN PRODUCTION OF BEEF OVER GENERATIONS FROM:

- 1950-60's land ran 250 cattle / 1000 sheep
- 70's - 80's = 350 - 450 head. Beef.
- 90 - present - 650 - 700 BREEDERS

Improving land for prosperity + wellbeing

OUR SELF ASSESSMENT ON VEGETATION + LAND HEALTH IS OUR FUTURE + LIVELIHOOD FOR GENERATIONS TO COME.

We live with our decisions which come at huge costs.

3. Including High Value Regrowth as an additional layer of regulation under the Vegetation Management Framework on leasehold, freehold and indigenous land

WE NEED TRUE SCIENCE
 NOT narrow minded, Tunnel vision Politicians
 with no interest in this industry ~~and~~ or future or
 countries prosperity. only theirs.
 our Previous PM's are a commonsense
 approach in land management.

NO! FOOD FOR THE FUTURE. improving + nurturing
 our land the right way for prosperity + wellbeing.

demmising our rights to improve is a blanket
 approach to ~~take~~ down an industry by
 people of no interest + biased concerns.

4. Increasing Category R regrowth watercourse vegetation to include additional catchments in the Burnett Mary, Eastern Cape York and Fitzroy Great Barrier Reef Catchments.

OUR maps are on the Fitzroy catchment
 area.

Good science has being proven no damaging
 impact on the great barrier reef

Developing the north is yet another
 good food source + ~~land~~ just waiting to
 happen and will be very productive to our
 Economy.

Red Tape :- Governmental Wrong Decisions made
 by narrow minded/tunnel visioned politicians with no
 interest or knowledge of our industry.

Government ~~decisions~~ always costs the people
 time + money

5. That no compensation will be payable to landholders subject to added layers of regulation – high value regrowth, regrowth watercourses and essential habitat during transitional arrangements

Queensland farmers are compensated! TAFE

6. Increasing compliance measures and penalties under vegetation management laws.

If legislation is rushed through then mistakes will happen this should not be put on the latter part on the people who rushed this legislation through.

7. Other matters relevant to the Vegetation Management and Other Legislation Amendment Bill 2018 that the review committee should consider appropriate and worth some consideration

Listing of all Persons associated with this
legislation - + the destruction of rights
of rural citizens.

Names (People pushing this bill) .

Agforce lawyers Courts .
affected landholders
Police

Compensation

People supporting the Bill be held accountable for
their decisions which cause
loss of income
financial disabilities
closure of business's.
mental
medical .

This is a Prime Example of the Live Export markets
Peta . Labour government .

We have to follow the same path to fight this
Biomimetic disaster .
