Committee Secretary State Development, Natural Resources and Agricultural Industry
Development Committee Parliament House George Street Brisbane Qld 4000

Submission to Vegetation Management and Other Legislation Amendment Bill 2018
('VMOLA Bill') inquiry

Dear Committee [Instead of these laws why dont you implement environmental impact statement that each farm has to do and abide by , that way you have a plan to protect and develop ,queensland and these statements carry on with the property . You will create jobs . Create certainty in farming ,and have a plan that will be recognised for ever not a poliyical game with no honest and just reporting . The mines have to have an E.I.A property developers do .ehy not farmers , the on leasehold land you can re oke their lease if they dont comply. Stsrt being proactive and make people responsible .

Yours sincerely, Ian Wright
