Dear Committee Members,

I am only temporarily working in Australia, but I love your country as much as I love my (original) home country (in Central Europe). I feel particularly connected with your unique environment and iconic nature.

Together with so many other members of the community in Queensland (and elsewhere in Australia), I kindly ask you to do what you can to protect and save your native bushland and forests for future generations. It's part of your heritage Australia!

Kind Regards,  
Oliver Neubauer
