---

I provide my submission on rejection of the changes proposed in the Vegetation Management (Reinstatement) and Other Legislation Amendment Bill 2018 ("the Bill").

This constant change in legislation severely impacts on the ability of farm managers to plan and implement effective long-term property and business management decisions. Ecological processes work in much longer timeframes and can be severely compromised when mismatching regulations are enforced. Farmers have long called for certainty with the vegetation management regulatory framework.

Should this Bill be implemented I will be faced with the uncertainty of my job as this business relies on the Agricultural Industry. This local community will also be affected in the future as it relies on Agriculture.

The opportunity for implementing succession planning and expansion with my parents on their cattle property will be uncertain. This will be devastating to our family and many others.

Regards,  
Karla Hicks
