Subject: Forestry from regrowth and planting.

To
Committee Secretary
State Development, Natural Resources & Agriculture Industry Development Committee
Parliament House
George Street
Brisbane QLD 4000

Regarding the new proposed Vegetation legislation, we are growing timber forestry by planting and by regrowth in Paul's Pocket QLD, we registered the growing area, ex-sugar cane land in 2006, again in 2007 and reconfirmed in 2016 as farm land to be logged and cleared as and when we need to in the future. (Long term business plan for logging, backed by PMAV)

PMAV's attached.

By paying our fee \$380 and providing an aerial GPS survey we have a documented long term guarantee that this productive forestry land is now classed white category X for vegetation management on freehold land and that it CAN NOT be re-zoned under any legislation change.

We are currently 10 years down a 25 year forestry plan, that has requires significant investment in both time and money.

Clearing purpose Vegetation type Details

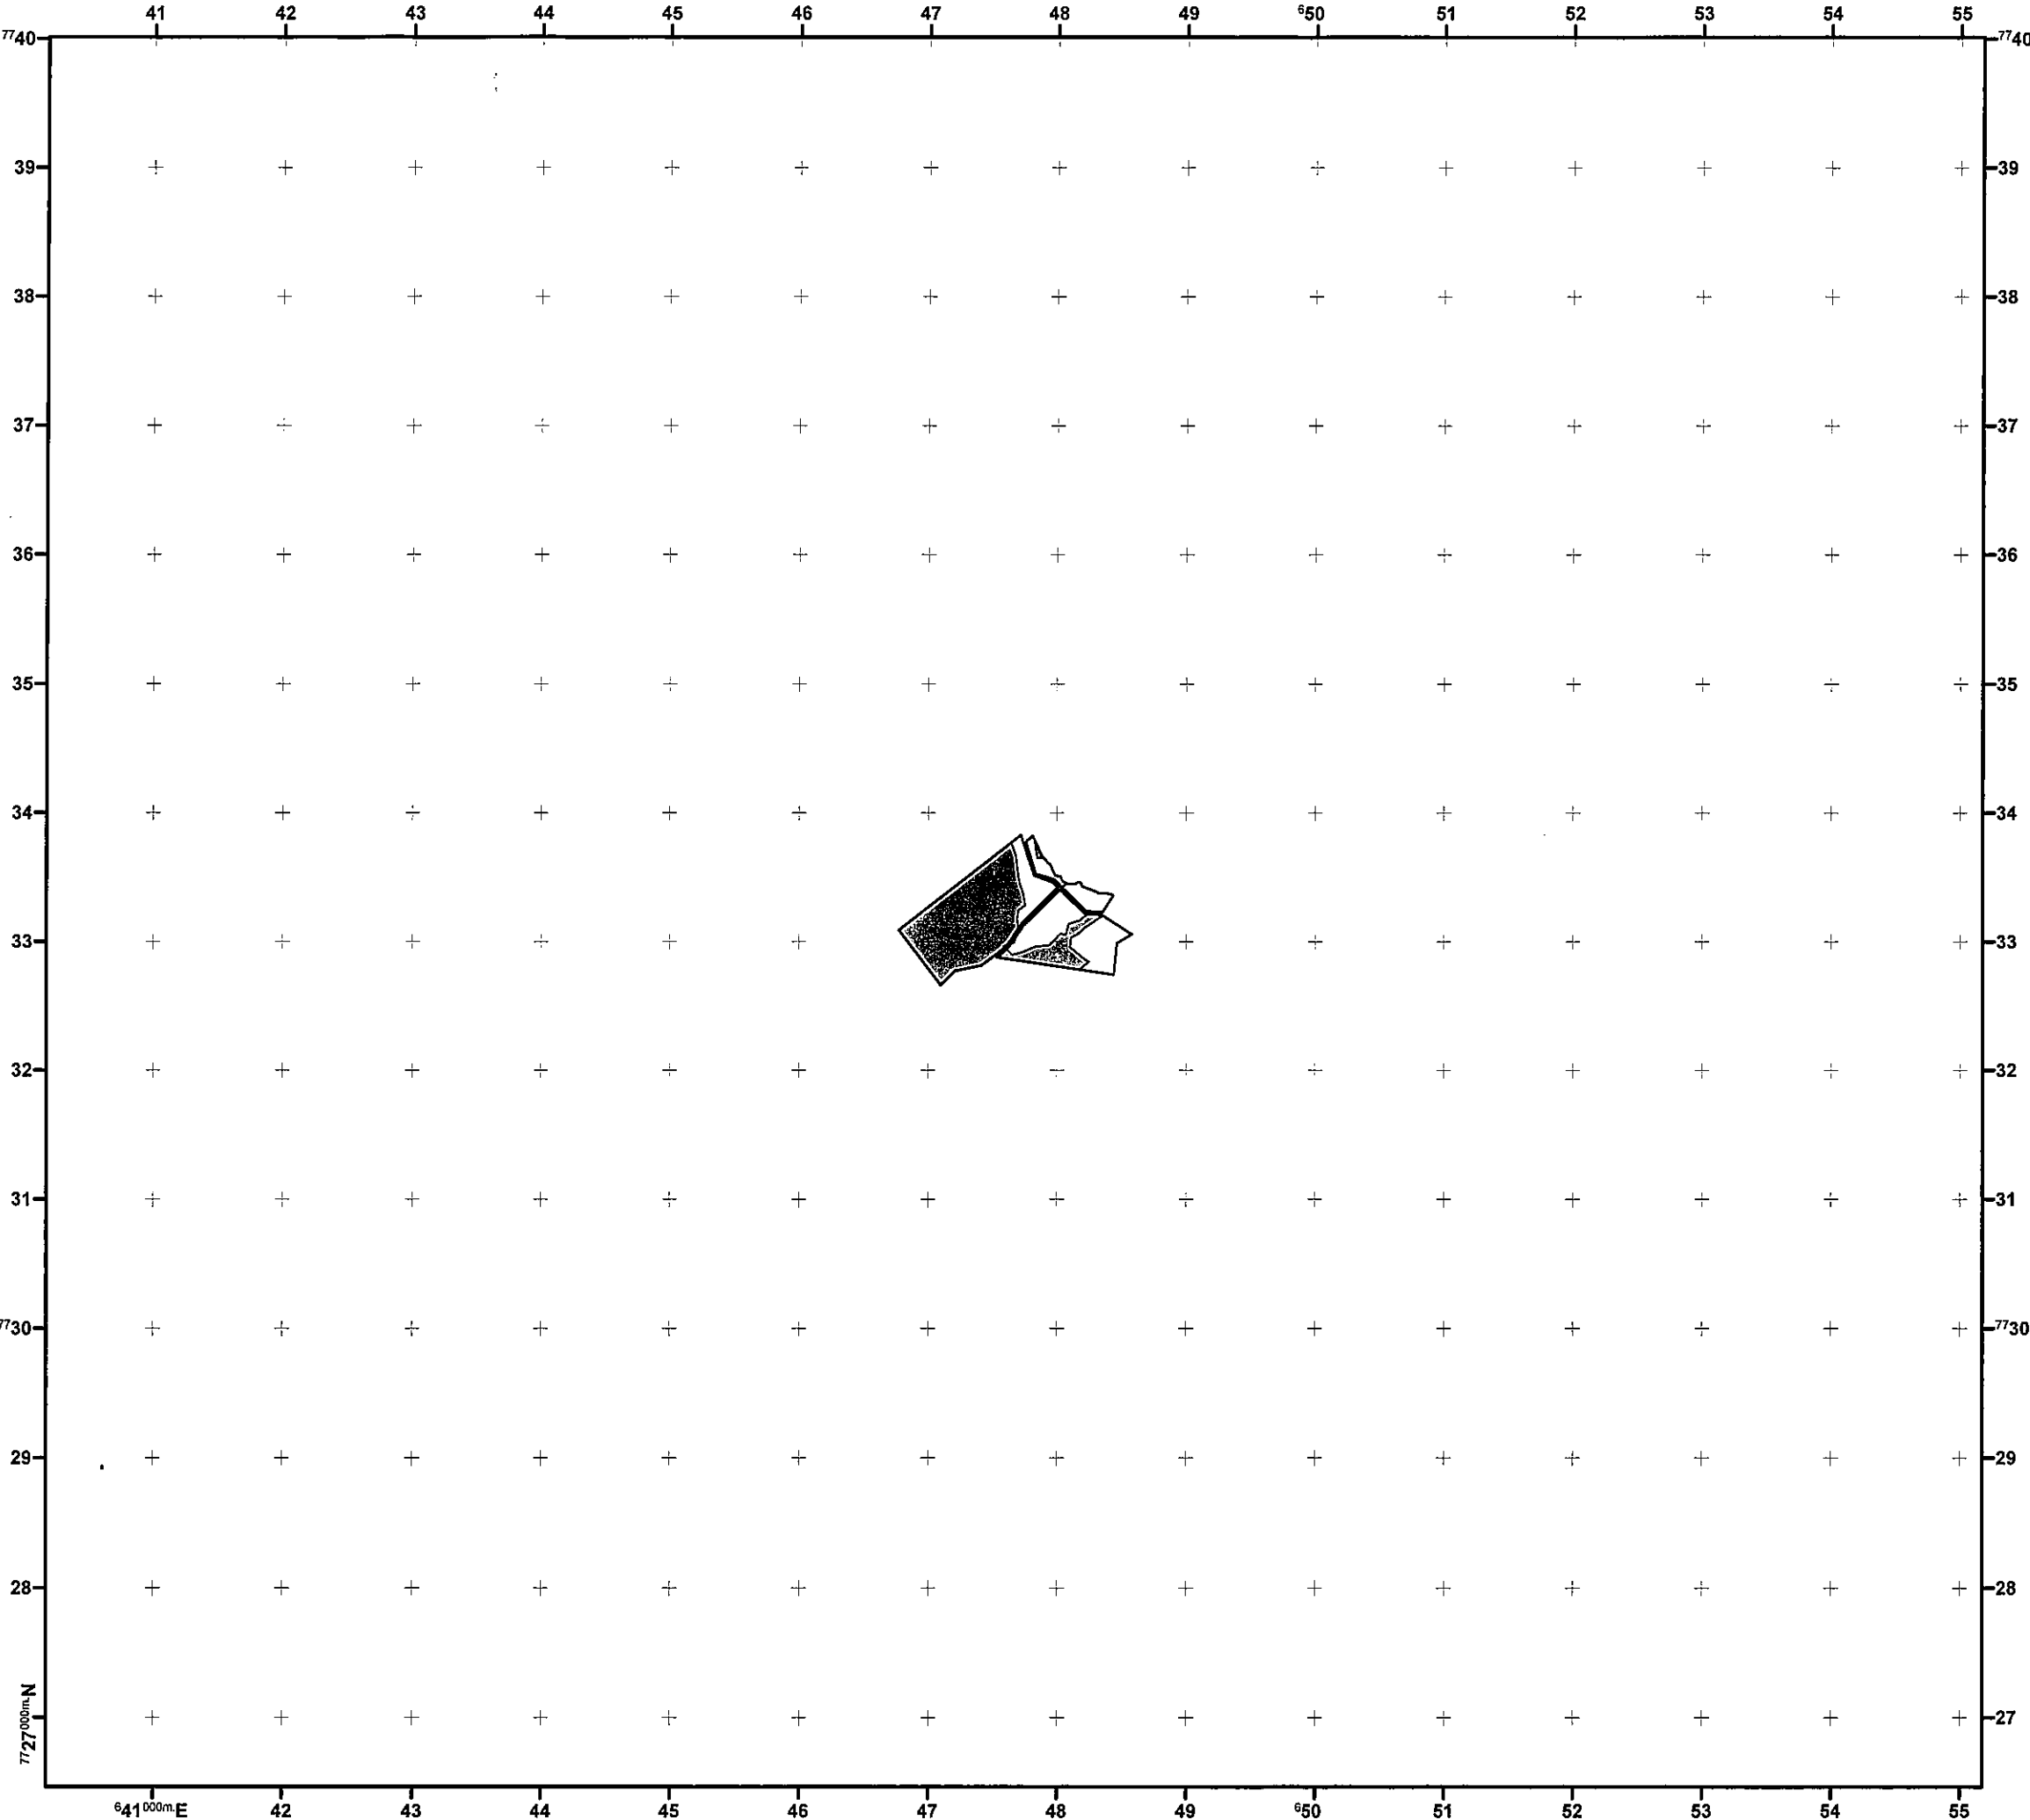

All purposes Category X Clearing is exempt on freehold, Indigenous and leasehold land.

Please confirm.
