Subject: Submission on the Vegetation Management and Other Legislation Amendment Bill 2018
Date: Wednesday, 21 March 2018 2:40:34 PM

To: Queensland Parliamentary Committee Members

Dear Committee members,

Thank you for the opportunity to make a submission on the Vegetation Management and Other Legislation Amendment Bill 2018.

I am very concerned about the amount of forest being destroyed on a continuing basis in Australia and welcome the opportunity to comment on the situation in Queensland.

Whilst there are improvements in this law I would ask that in particular they be structured to bring down the overall rate of deforestation and protect the habit of native animals and to safeguard the Great Barrier Reef catchments.

Regards,

– Pam Lewington
