**Submitter Comments:**

Thank you for the recent suggested amendments to the Animal Care & Protection bill. It does however appear that a number of other potential amendments have been omitted. Please also consider adding in the following: They failed to properly consider an Independent Office of Animal Protection- This Bill does not ban calf roping - instead it clarifies that rodeos events (under the Code of practice) are allowed- It does not introduce mandatory reporting of suspected animal cruelty- It does not ban 1080 poison- It does not acknowledge the sentience of non-human animals- It does not extend the statute of limitation for animal cruelty offences (currently 12-18 months)- It does not make any meaningful changes to factory farming and other farmed animal welfare, including transport or slaughter (other than CCTV for horses at slaughterhouses). How often is the footage to be reviewed? Why is it only mandatory for horse slaughterhouses?- It does not make any major changes to monitoring and enforcement of animal welfare, particularly for farmed animals. What about issue relating to the de-horning of animals? Or the removal of extra teats from cows? Both procedures are often performed without anaesthesia! Kind regards, Carly
