Submitter Comments:

Please ban glue traps and 1080 bait poisoning. These horrid inhuman traps & baits kill many many non-targeted species. They are indiscriminate trapping/killing methods that result in hugely slow and painful deaths of all animals that get caught &/or take up the baits. We loose many many native animals and people pets to these methods. Many glue traps are put out & not checked leaving numerous animals to die horrendous deaths- just ask a vet how hard it is to try to save an animal stuck in this stuff without causing sever trauma & physical damage. 1080 is also horrific- no antidote! Australia is showing how uncivilised & barbaric practices by using these methods. The glue traps & 1080 baiting is banned in most countries showing that they are recognised as terrible inhumane practices. There are many more suitable humane ways of controlling pests (ie. targeted species) that can be used instead of these ineffective 'kill all' methods. Please ban them Kind regards
