**Attachments:** No attachment

**Submitter Comments:**

We need the laws to be updated to quantify the amount of wildlife and other animal losses. We lose far too many animals at the hands of humans. These animals need you to stand up and help them to survive and live freely as they naturally should. Their life's are important just as every life is. We must be their voice and ban harmful materials and substances that can cause a threat to animal life's. If we could all put ourselves in their feet for a day, how would we fare? They are just doing what an animal does naturally.
